→ **FRANCHISING** CARNOISSEUR Franchises available nationwide

WE ARE ALWAYS ON THE LOOK OUT FOR NEW FRANCHISEES: The right type of person with the determination to establish a successful business; a passion for cars; and the desire to offer an exceptional customer service to their local community.

If you feel you have these attributes and would like to know more, please complete the application form on our website (www.carnoisneur.com) to receive further information or call Managing Director Neville Crow direct on **07860 863179**.

FULL SHOP FRANCHISE

- Run your own modern, high street shop
- Be your own boss
- Market leading car accessory retailer for over 30 years
- Sell from a massive range of Car Care, Alloy Wheels, Tyres, Brakes, Exhausts, etc.
- Comprehensive training
- Extensive marketing
- Ongoing support
- Proven track record
- Very low cost of entry... from just £13,500*

The Carnoisneur Accessories franchise opportunity comes complete with comprehensive training, support, marketing and systems. Over the last 30 years we've learnt a thing or two about how to sell car accessories; all of that knowledge and experience is put into our complete franchise package.

FROM JUST £13,500*

*£13,500 for full shop franchise includes stock, training and franchise fee. It does not include VAT or any possible shopfitting requirements such as slatwall, flooring, decorating, etc. These items are costed on a site-by-site basis; Carnoisneur work with franchisees to find the most cost-effective shopfitting solutions. Once all of the materials needed to complete a typical shopfit have been purchased, the average total is closer to £15,000+VAT.

ALLOYS ONLY STORE-IN-STORE FRANCHISE

- Suitable for existing businesses with as little as 6 metres of showroom wall space available
- Ideal for garages, car showrooms, tyre fitters, car accessory shops, in-car entertainment centres
- Sell from a massive range of alloy wheels and associated products
- Additional profit centre
- Comprehensive training
- Extensive marketing
- Ongoing support
- Very low cost of entry and running costs
- Contact us now for more details

Tyre Pressure Monitoring System

1 TYRESURE WIRELESS SYSTEM

Advanced wireless tyre pressure monitoring system (TPMS). Saves fuel, saves lives and saves tyre wear! System includes 4 sensors and an attractive display screen for the cabin.

From a racing or track day perspective, tyre pressures can be fine tuned to improve performance. TyreSure monitors and displays both pressure and temperature.

The sensors can be fitted to your wheels at any good tyre fitter. Alternatively we can fit the Tyre Sure system to any sets of wheels and tyres purchased from Carnoisieur. We will not charge for fitting the system!

- Monitors tyre pressure and temperature
- 24hr - 365 days a year monitoring
- System alerts driver within 3 seconds of any abnormality
- Saves lives
- 7 year sensor battery life
- No need to check tyre pressures again
- Saves fuel
- Saves tyre wear
- Perfect for road and track

A 6PSI drop in pressure can lead to a 10-20% increase in fuel consumption and 30% increase in tyre wear.

Tyre pressure monitoring systems are now mandatory on all new cars in the USA, that is how important this feature now is. TyreSure racing partners include Honda LeMans 24hr team, Formula Renault and C1 Supercup.

Unit size 85mm, Height 50mm, Depth 20mm.

2 EIBACH CAMBER ALIGNMENT KITS

When you change your vehicle's ride height you can expect to change your vehicle's suspension geometry as well. Most severely changed is camber. This will effect both your tyre wear and how your vehicle handles. By tuning your suspension with an Eibach Camber Kit you can save your tyres and bring back handling. Restore ride quality and appearance at the same time.

- Extend you tyre life
- Improve handling
- Enhance appearance
- Increase tyre-to-road contact
- Restore ride quality

1 EIBACH ANTI-ROLL KITS

1 ANTI-ROLL KIT

The Eibach Anti-Roll Kit allows further refinement of the driving properties of your vehicle. Installation of the Anti-Roll reduces lateral rolling of the body, thus enhancing the sporty driving behaviour in combination with Eibach suspension components. This additional stability provides even more driving pleasure under all conditions. The Anti-Roll Kit is optimally tuned to the Pro-Kit Lowering Springs and adjusted fully compatible to Sportline Kits. It may, however, also be combined with original equipment springs in the event, that a lowering of the vehicle is not desired.

5 PRO-SPACER

Eibach pro-Spacer is the ideal combination for use with the Eibach Pro-Kit Lowering Springs. If the original or aftermarket wheels are missing that last optical 'kick', with the Pro-Spacer installed the car looks wider and better as the wheels fill the arch. By increasing the track width, not only is the appearance improved, you also achieve an optimised driving behaviour combined with high stability.

The Pro-Spacer is made from high tensile aluminium alloy and is available in different widths from 5-30mm to suit your specific vehicle. Please enquire for your vehicle.

2 PRO-DAMPERS

Professional quality shock absorbers. The unique internal valving system engineered by Eibach provides a highly responsive and accurate suspension component for all driving conditions. Combining a Pro-Damper Kit with Pro-Kit Lowering Springs ensures an unrivalled suspension package tuned to optimise handling.

POWERFLEX®

1 POLYURETHANE SUSPENSION BUSHES

Suspension bushes are one of the most highly stressed components fitted to a motor car. They undergo enormous strain, in the most arduous of conditions with no maintenance or lubrication. Conventional rubber bushes deteriorate with age allowing movement of suspension components and geometry. This can cause tyre wear, braking instability and poor handling.

Powerflex bushes are made from a technologically advanced polyurethane plastic compound. This compound

overcomes the common problem associated with harder bushes which is increased noise. By correctly engineering the polyurethane compound, bushes can be made 25-30% stiffer than new rubber bushes, but with exactly the same noise absorbing properties.

Powerflex bushes are fitted with stainless steel inserts, where required, thus avoiding the corrosion problems associated with cheaper steel bush inserts.

COBRA

SUSPENSION

The Power of Control

COBRA SUSPENSION has more than 20 years experience developing sports suspension for race and street cars. COBRA lowering springs are made in Holland to meet the highest European quality standards like ISO 9002 and TUV.

COBRA SPORTS LOWERING SPRINGS Improved handling and response, lowering from 20mm to 60mm. TUV/GOCA/DSA approved and guaranteed for 5 years. COBRA SUSPENSION lowering springs not only give your car that "racing" look, they also improve handling during fast cornering, acceleration and braking.

Part No. 148 9152

COBRA SHOCK ABSORBERS Feature twin tube gas pressure shock absorbers with sport valves, available in original length or with shortened piston rods.

Part No. 148 9153

COBRA COILOVERS Coil-over suspension kits are adjustable in height, EVOI and damping EVOII, and EVOIII. Technical Features: Twin-tube gas pressure system, front and rear axle adjustable lowering up to 80mm, adjustable damping (EVOII rebound and EVOIII inbound and rebound) after installation, polyurethane bushing and special bump stop. EVOIII features upside down piston and top mounts. EVO R is a full race competition system with high and low speed damping.

Part No 148 9154

Gmax

- High quality sports suspension.
- Developed in conjunction with OE manufacturers.
- Maintain excellent levels of ride comfort.
- Largest range of suspension in UK at affordable prices.

SPRING KITS

1 EBC SPORT DISCS

3GD Discs with wider slot draws cool air across the pad surface keeping pads and rotors cooler. They also expel dust, dirt and hot gases better than fine slots which eventually fill with rust and scale and become ineffective. The blind drilled holes break down surface gases when braking from speed but do not weaken the rotor cross section as can happen with drilled through, thereby lessening the chance of rotors cracking over time and heavy use. Gold zinc anodised.

Brand New Ultimax Black Anodised rotors also available for a limited range of cars. Much quieter braking and feature a new special paint process to prevent corrosion. Unique Ultimax slot design.

FROM £75.04 PAIR

2 ULTIMAX PADS

A high friction pad designed for general replacement use on cars, vans and SUV's. Using shimmed, chamfered and slotted technology and incorporating EBC's unique BRAKE-IN coating for super quick pad bed-in.

Black coded brake pads are a high friction premium material approved to ECE R90 brake safety regulations. You are getting an exact equivalent to an original equipment pad for far less money. Don't let the lower price point cloud your view of this superb quality product, these pads will stop your vehicle as fast as any original equipment pad and faster than most aftermarket pads. One brilliant feature of EBC R90 pads is their ability to completely eliminate brake judder and these pads will actually COMPENSATE for mild brake judder after 300-400 miles of use.

FROM £8.01

3 GREENSTUFF PADS

FAST ROAD. Designed for premium street driving offering better brake effect at loads and speed. EBC Greenstuff has a high initial brake effect and gives drivers confidence from first application of the brake pedal. The EBC pad creates less dust and the dust is more easily washed off than most. For heavier faster cars and vehicles above 200bhp we strongly recommend Redstuff Pads.

170 2677

FROM £25.32

4 REDSTUFF PADS

ULTIMATE FAST ROAD. Ceramic formula. This is a truly impressive fast road pad for repeated heavy braking. It emits far less dust than semi-metallic pads and has been proven to stop a car 13 metres quicker than OEM pads from 100mph. Features EBC Brake-In™ surface coating which conditions rotor surface and accelerates pad bed-in.

5 YELLOWSTUFF PADS

TRACKDAY & FULL RACE USE. Although a full race material and capable of high temperature use with very good wear life, this new formulation sets a new trend in race type brake pad compounds. The 'bite' from cold is superb which is uncommon with race materials (normally requiring warm-up) and makes this a pad which can be safely used on the highway as well as on the race track. This new formulation is used by numerous championship race and rally drivers and is truly a milestone in brake pad material development.

- EBC Red Stuff pads • Brake fluid
- All fittings

Please call to discuss what size discs will suit your car and alloy wheels

HI-SPEC BRAKE CONVERSIONS

The very highest quality performance brake conversion kits available. Bigger discs, bigger calipers and much more stopping power. Kits include calipers, rotors, braided brake lines, EBC Redstuff pads, brake fluid and all fittings. Supplied with Black calipers and Silver bells as standard, other colours available on request.

Caliper Options:

BILLET 4

The most universally applicable and widely used model. It features a rigid lightweight aluminium body which is CNC machined from billet Bar. Dust seals and internal fluid transfer galleries along with the rigid design ensures that the Billet 4 is consistently suited to the weight and power of your car. Supplied as standard in Black with engraved Hi-Spec logo. Other colour options available on request.

MONSTER

CNC Machined Lightweight Aluminium Body, Four or Six Pistons (i.e. Monster 4 or Monster 6), fully dust sealed, rigid design. Internal Fluid Crossover. Hard anodised Black, other colours available on request. Larger caliper allows for bigger pad to improve braking power.

MEGA MONSTER

The most powerful in the Hi Spec range combining awesome looks and supreme power. In addition to the awe inspiring visuals it keeps all the benefits of the Hi Spec road range including six pistons, internal and external hard anodising, full dust seals and internal fluid crossover.

Please see table for available prices and applications with the various disc sizes and caliper options. It is extremely important that you check the caliper clearance on your particular vehicle before ordering. We can supply an accurate template for your car to see just how big your brakes can go.

All HEL kits come with CNC machined stainless steel fittings, banjo bolts and new copper washers (where applicable), stainless steel braided Teflon hose, a PVC protective wipe-clean sleeve, and lifetime warranty.

All HEL kits also come complete with a protective PVC sleeve, available in a choice of clear, STi pink, red, neon blue, denim blue, black, deep purple, neon purple, lime green, orange, carbon look, white, and yellow at no extra charge.

All HEL hoses are legal to be fitted to any vehicle worldwide and have FMVSS-106, ADR, LTSA and DOT and TUV approval.

Full range available for all makes and models. Call us today for a quote for your specific vehicle. Made to order, fast delivery.

Part No. 170 2631

1 AUTOMEC SILICONE BRAKE & CLUTCH FLUID

The most advanced DOT5 brake and clutch fluid ever formulated. Never needs to be replaced with NOT damage paintwork, less risk of fire. Very high boiling point of 260°C (500°F), even after five years. Helps to eliminate corrosion. Environmentally friendly, totally non toxic. Silicone fluid retains a virtually

stable viscosity through most temperature extremes.

For the very best performance, do not mix with ordinary brake fluids.

Ideal product for track day enthusiasts as well as fast road applications.

Goodridge brake line kits use the finest quality materials manufactured using a high tensile stainless steel outerbraid with a PTFE innercore. Unlike some cheaper kits, the Goodridge hoses feature plated steel fittings swaged onto the braided hoses making them totally road legal (TUV/FMVSS106).

Dramatically improves the stopping distance while giving a firmer, more responsive pedal feel. Goodridge brake lines offer confidence, performance and a lifetime guarantee. Goodridge stainless steel braided brake lines have become the standard in racing where the ultimate braking is required. As used by the World's top Rally, F1, Indy and Nascar teams.

- Eliminates pedal sponginess
- Reduce braking distance
- Finest quality Stainless Steel
- Available for almost EVERY vehicle

Some example prices are listed below but please call for the best price and to check availability.

Colourflex hose options also available: Blue, Black, Green, Red, Clear, Yellow, Orange or Carboline.

1 BLUEFLAME PERFORMANCE EXHAUSTS

Manufactured from 304 grade aircraft spec stainless steel, the finest quality systems on the market.

Blue Flame carefully analyse the original exhaust system, and then re-design from scratch, their own carefully thought out performance variant.

By using this process Blueflame are able to engineer specific attributes into the system, taking into account the exhaust tone and performance capability.

Once the right tone is achieved, they build in the performance capability of the system, by carefully analysing the engine output to its ultimate dynamic capability by remapping and induction modifications. This is done by calculating the gas flow required and further by matching this to the correct tube and bend diameters, all of which are mandrel formed on state of the art CNC bending machines.

All systems are dyno proven to give 'out of the box' performance gains in addition to increased power derived from ECU re mapping and induction improvements.

Blue Flame offer products that are

- Designed from scratch by in house performance technicians
- Designed to give genuine performance gains
- Designed to interface with further performance upgrades
- Designed to sound sporty without being intrusive
- Designed using the finest 304 grade stainless steel
- Designed using free flow silencers for maximum power and torque
- Designed and manufactured in the UK
- Designed for life

Range includes downpipes, de-cat pipes, hi-flow motorsport cat replacements, centre sections, rear silencers and replacement tailpipes.

Part No. 558 2231

The Tuner's Choice

The only stainless steel exhausts to be designed and manufactured by a serious tuning company. The systems are formed from 1.5mm wall T304 stainless steel tube on state of the art CNC machines. Mandrel bent (not cut and weld), the silencers are formed from polished stainless steel and packed with the highest quality materials available.

The systems are finished with a choice of highly polished tail pipes, and our own tests have shown that a Mongoose will give more power than any other aftermarket exhaust system.

PowerSound

1 REMUS PERFORMANCE EXHAUSTS

Remus produce one of the largest ranges of sport exhausts worldwide. All exhausts are extensively rolling road dyno developed to give excellent power increases, using experience from their involvement in WRC, Touring Cars and many other forms of motorsport.

Utilising their specially designed acoustics room and computer controlled sound testing equipment, Remus sound engineer their products so that the exhaust note will be deeper and more aggressive from outside the car, but without being annoying inside.

Manufactured entirely from stainless steel, the range is offered with numerous innovative tail pipe options.

Part No. 154 6109

Why Choose a Green Cotton Air Filter?

- Leading air filter supplier to the motor sport industry.
- Deep pleats in the cotton filter increase surface area by up to 20% allowing greater air flow.
- Precision production techniques virtually eliminate rubber seepage on to the filter surface.
- Maximises air flow into the engine thus increasing horse power, throttle response and torque.
- Environmentally friendly, produced from a natural renewable resource which is washable, reusable and creates less waste than paper and foam filters.

57i INDUCTION KITS
FROM £42.71

1 REPLACEMENT ELEMENTS

Replaces the standard paper element in your existing airbox with a free flowing long life filter - million mile on road guarantee and up to 100,000 miles between cleans. Increased power and response.

306 5024 from £33.38

2 57i INDUCTION KITS

For fuel injected cars. Looks good and sounds superb. Replacing the restrictive standard air intake and airbox design with a simple, high-flow induction system unleashes your engines potential to produce more power.

306 5027 from £42.71

3 TYPHOON INDUCTION KITS

Highly engineered free-flowing intake systems designed to provide colder denser air for more power. Typical power gains from 5-15bhp! The induction pipe is available powder coated Red, Blue or Silver with an option of a highly polished finish.

306 5026 from £174.90

1 AIR INDUCTION KITS

Tailored for each car to achieve a smooth passage for air into the engine, therefore maximising the engine's power output. Instant results with increased BHP and throttle response.

Full fitting kit supplied with every filter.

306 5030 from £45.99

2 VIPER INDUCTION KIT

The Viper uses 'velocity air force' to channel cold air directly into the induction system. The cold air pipe feeds air from the front of the car straight into the filter system, whereas most after market induction systems breathe in air from the engine bay.

A Carbon Fibre surround keeps the Viper cool and the cooler the air, the bigger the increase in power. The carbon shell also looks stunning and will enhance any engine bay.

306 5029 from £174.99

3 VELOCITY INTAKE SYSTEM

Pipercross new Velocity Intake Systems have a brand new filter with increased surface area foam and a carbon fibre duct pipe.

The filter is placed in an area of high flow volume cold air to product maximum power with fantastic underbonnet looks.

306 5056 from £235.00

4 VENOM AIR INTAKE KIT

Double conical design to increase surface area by over 40% – the largest of any other intake system available.

14 OIL PRESSURE AND OIL TEMPERATURE GAUGE FITTING SANDWICH PLATES (OPOT)

An OPOT is a sandwich plate that fits between the oil filter & its housing. The standard OPOT has 3 ports @ 1/8NPT to enable the fitting of an oil pressure gauge sender & an oil temperature sender. Many of the world's cars are covered in this application list. The standard filter must be a spin-on type. 2 blanking plugs are supplied in the basic kit.

Please state make and model of car when ordering.

16 GAUGE TO HOSE ADAPTOR KITS (OIL OR WATER)

To be used for water or oil temperature gauges where the original fitting is either too small or unsuitable, possibly because the original sender is connected to the engine management system and cannot be replaced, or in the case of oil temperature, where there isn't any suitable fitting but there is oil cooler piping.

Available 13, 16, 19, 25, 32, 35, 38, 40, 45 and 50mm Hose ID fitting.

Note: Polished Alloy finish only at present.

2 NOLOGY SILVER SPARK PLUGS

STOP! playing around with spark plugs that feature Iridium electrodes, Platinum electrodes, Copper electrodes, fine wire electrodes, split electrodes, ring electrodes or multiple electrodes and get serious with Silver electrodes! Silver is the best electrical and thermal conductor of any metal. This makes Nology Silver the best spark plugs in the world.

- Silver Center Electrode
- More Spark Power
- Deliver the Most Powerful Spark
- Increased Horsepower
- Cleaner Combustion
- Long Lasting

- Race Proven Design
- Top Quality Materials

What about Iridium Spark Plugs?

What about Iridium Spark Plugs?
Iridium is a super dense material and therefore extremely resistant to wear. That's it!

It is a terrible thermal conductor and a bad electrical conductor.

Nology Silver spark plugs are especially designed for high-performance engines.

The large diameter silver center electrode increases spark carrying ability and spark power. Silver is extremely resistant to erosion, guaranteeing a virtually unchanged electrode gap for the life of the spark plug. Most Nology Silver spark plugs are without a resistor, perfect for

performance enthusiasts who demand the most from their engines. For racing or dependability and efficiency for everyday use, Nology Silver spark plugs deliver the most powerful spark.

PIPER CAMS
It's a Power Thing!

Massive range of kits available for road, race and rally applications.

3 PIPER CAMSHAFTS & KITS

A Piper performance camshaft kit will typically contain:

- Piper Performance camshaft.
- Set of cam followers/hydraulic lifters.
- Set of valve springs to suit cam profile.
- Bottle of cam lube.
- Camshaft driving disc.
- Plus any other essential parts for that particular application.

Engine modification may be needed when fitting these performance camshafts, please check when installing.

Massive range of cams and cam kits available. Please enquire for full details.

FORGE DUMP VALVES

There are three types of dump valve, sometimes referred to as a Blow-Off Valve (BOV), available. All three serve the same purpose of releasing built-up boost pressure from the turbo. This allows the turbo to keep spinning when you let off the throttle and therefore improve response and extend the life of the turbo.

ATMOSPHERIC – SINGLE PISTON/DIAPHRAGM

Dumps the built-up pressure into the air and creates the famous racing car 'whoosh' noise. Single piston valves are for petrol turbo cars without an Air Flow Meter.

ATMOSPHERIC – TWIN PISTON

Suitable for petrol turbo cars with an Air Flow Meter. This uses counter balanced springs and dual pistons to prevent the valve from leaking air. Dumps to air as above.

RE-CIRCULATING (CLOSED LOOP)

Suitable for all petrol turbo cars. Re-circulates the air back into the intake system, therefore venting the built-up pressure, freeing the turbo, but keeping the net flow of air constant. You do not get the dynamic 'whoosh' noise but you do get an efficient performance increase.

4 ATMO SINGLE PISTON

Fast Road Dump Valve – suitable for ALL petrol turbo cars without an Air Flow Meter. Available in Silver or Black. (FMDV001)

1 XTREME WHITE PLUS BULBS

The very best in upgrade bulbs. As the name implies, these bulbs are Xtreme! Upgrade your bulbs for a brighter crisper white light – the closest performance to H.I.D. (High Intensity Discharge) Lamp systems at a fraction of the cost. Supplied in pairs. (Not E-marked)

2 CHROME MIRROR WHITE BULBS

Another innovation in bulb technology from PIAA. The Chrome Mirror White range provides a new dimension in automotive lighting. At night, the Chrome Mirror generates a crisp, clean, intense white light. By day, it ensures that no colour can be seen in the headlamp reflectors, therefore not effecting the aesthetic appearance and design of modern and fashionable headlamps. Supplied in pairs.

3 PLATINUM WHITE BULBS

High efficiency halogen bulbs emit a pure-white colour that is closer to natural sunlight than standard bulbs. Very high quality. All Platinum White bulbs are E-Marked. See table for prices. Supplied in pairs.

4 1100X DRIVING LAMP KIT

Compact design allows easy installation. High output 55W XTRA halogen bulb performs like an 85W bulb. Available with either Clear or Blue lens. Chrome plated housing. Approaches the brightness and intensity of H.I.D. lamps at a fraction of the cost. Supplied in pairs. (height: 78.5mm, width: 65mm, depth: 76mm).

SEIBON

Seibon Carbon specialise in the design and manufacture of high-quality carbon fibre automotive body components such as bonnets, boot lids, fenders, and aerodynamic body additions such as rear spoilers and side skirts.

Seibon parts are of the very highest standard with both 'dry' and 'wet' components available.

Massive UK stocks available for immediate despatch and a swift special order service from the USA, at no additional cost, for all other parts.

The range is extensive covering a wide range of vehicles. Please give us a call for your car and the best possible quote.

Part No. 160 2010

1 STAINLESS STEEL SILL PROTECTORS

Manufactured from the highest quality materials (bright annealed, 20 gauge, 304 grade, non-magnetic stainless steel).

These plates fix to the sill by means of powerful adhesive pads and each sill has the car logo engraved to a high standard.

- Protect vulnerable paintwork which is most exposed to daily wear and tear.
- Cover previously damaged paintwork.
- Enhance the car's appearance and add that 'touch of class'.
- Easy to fit (no drilling required).
- Excellent value for money.

Please state exact year, make, model and number of doors when ordering.

SNOOPER

3 SNOOPER LYNX

Speed trap locator with GPS and GPRS technology. Share & receive mobile speed trap information with other users. Real time alerts with automatic wireless downloads wherever you are - No PC required!

Uses GPRS technology to provide drivers with advanced warning of mobile speed traps including laser as well as fixed speed traps such as Gatso and Truvelo cameras.

Receives 'Live' updates sent daily from our server as well as alerting to speed traps stored in its internal memory. Snooper collates the positions of hundreds of mobile speed traps every day which are sent automatically to your unit. LYNX will then provide advanced warnings of both fixed speed traps such as Gatso and Truvelo cameras but also mobile speed traps such as police laser guns and camera vans.

At the touch of a button any member of the LYNX community can share the location of any type of mobile police speed trap or camera with all other LYNX users. The instant a mobile police speed trap has been spotted all other LYNX users in the area will be notified.

Subscription charges apply, minimum 12 month contract.

4 SNOOPER 3ZERO

The 3ZERO is the first detector to incorporate GPS and radar/laser detection in one sleek, portable device.

Uses the most advanced GPS technology possible to accurately alert you to all 'fixed' speed traps such as Gatso and Truvelo cameras as well as SPECS average speed cameras often found at motorway roadworks. For the first time however, Snooper has combined GPS and radar/laser technology in one portable device.

New and improved radar/laser detection technology!

Highly sensitive laser detector designed to alert you to all types of mobile laser guns. Snooper's laser detection technology is more accurate than ever, giving longer detection ranges and more advanced pre-warning.

3ZERO also incorporates a highly sophisticated radar detector. Many speed traps such as Gatso cameras and handheld radar guns transmit a radar beam which determines how quickly you are travelling. 3ZERO can detect radar 'scatter' from these speed traps and provide advance warnings of their position.

Subscription charges apply, minimum 12 month contract.

EDGE

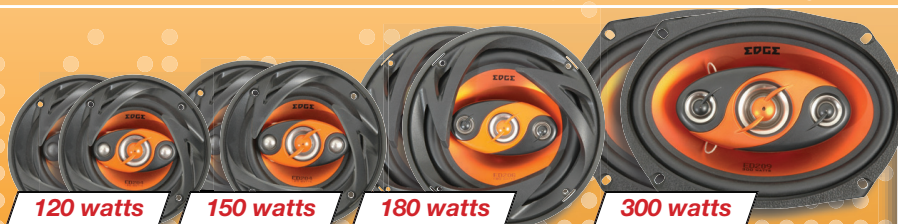

EDGE brings an exciting dimension to In Car Entertainment. Combining the ultimate in street style with state of the art technology EDGE is loaded with attitude which will ensure it is the must have product of the year.

Live by it!

LEVEL 1

Speakers

The EDGE range of 4 way coaxial speakers combine stunning design and performance in an end product which sets a new edge against the competition. The unique electroplated IMPP cone has been formulated to offer increased bass response whilst the PEI midrange and tweeter units offer crystal clear highs.

ORDERING

We want to make sure that you are completely satisfied with everything you order from our catalogue and with every aspect of our service. Please help us to help you by quoting the exact size and colour required wherever a choice is offered. You can be assured that we always do our utmost to hold our prices for the life of the catalogue. Unfortunately, due to circumstances beyond our control, such as VAT, inflation or currency fluctuations, prices do sometimes have to be changed. We must therefore reserve the right to alter prices at any time.

Our Policy

SATISFACTION GUARANTEED

We want you to be pleased with all the goods bought from Carnoisneur. If the goods sent to you are not acceptable for whatever reason, return the order within 14 days in a resaleable condition, carriage paid, and a refund will be issued.*

*Providing the goods returned have not been specially ordered or manufactured to meet your specific requirements. This does not affect your statutory rights.

DELIVERY

Goods held in stock will normally be dispatched within 24 hours. Non stock items will generally be dispatched within 7 days. Please note that all goods must be inspected before the delivery driver leaves. Any damage to either the packaging or goods must be recorded on the delivery note under the receiver's signature.

PRICES

In the past years most of our printed prices have been maintained for a full 12 months after the publication of the Carnoisneur Catalogue.

Occasionally, however, cost changes are inevitable due to inflation and exchange rate fluctuations on imported goods. We therefore reserve the right to change prices without notice.

EXPORT

Please email sales@carnoisneurdirect.com for details.

BACK ORDERS

We will be happy to hold back orders.

LET US KNOW

If any aspect of our service has not met with your approval, we are anxious to know about it. Please write to us and your letter will receive our prompt personal attention.

Carnoisneur Head Office, 5A Brittany Court, High Street South, Dunstable, LU6 3HR.

VAT

All goods are priced including VAT at 17.5%.

If the rate of VAT changes obviously our prices will change accordingly. Please remember our prices include VAT when comparing prices.

WHAT MAKES PILOTI DRIVING SHOES SO UNIQUE?

- Patented Roll Control™ spherical heel for unique cushioning behind the heel bone while in the car. Once outside the car, it supports your natural stride with a rubber heel.
- Athletic construction offers you good cushioning under the foot; unlike typical racing shoes or driving moccasins that have none. The unique "Toe Spring" aids in all-day comfort in and out of the car.
- Reinforced Lateral Side of the Right Shoe for easy heel-to-toe downshifting.
- Removable sock liner.
